Education

Dwarkadas J. Sanghvi College of Engineering *Aug 2024 - Pursuing*
B.Tech in Artificial Intelligence and Machine Learning
CGPA: 9.49

Skills

Programming Languages: C, C++, Java, Python

Web Development: JavaScript, TypeScript, React.js, Next.js, FastAPI, REST APIs, Node.js, PostgreSQL, MongoDB

Tools & Platforms: Tools Platforms: Git, GitHub, Vercel, Render, Replicate, pdfplumber, Axios, Vite, AWS

Soft Skills: Team Collaboration, Initiative Driven, Quick Adaptability, Attention to Detail

Experience

Intern – InVizn *(AI/ML SaaS Startup, Remote)* *Jun - Aug 2026*

- Developed **full-stack applications** using React, TypeScript, FastAPI, and PostgreSQL, delivering AI/ML solutions including a multimodal RAG pipeline, contextual chatbot, Chrome extension, and cloud-based image-to-video generation.
- Built production-ready **internal platforms** including CRM, complaint management, analytics dashboards, user telemetry, heatmaps, and third-party API integrations to automate workflows and support data-driven decision making.

Web Developer *(Freelance)* *Apr - Jun 2026*

- Delivered two freelance web applications focused on UI/UX design and frontend development using **React.js**, transforming **Figma** designs into production-ready interfaces.
- Designed responsive user interfaces, handled wireframing and deployment while managing end-to-end frontend execution.

Projects

AI LawBot GitHub | Live Demo *Apr 2026*

Tech Stack: React, TypeScript, Tailwind CSS, Node.js, Express, Radix UI, Groq API, NLP, ML, Vercel, Render

- Scaled a hackathon prototype into a full-stack legal assistant with citation-backed search and regional news.
- Impact: Streamlined research, cut citation effort, delivered insights for legal teams and startups.

UFI Project – Update Friction Index GitHub | Live Demo *Jan 2026*

Tech Stack: React, TypeScript, Tailwind CSS, Python, Scikit-Learn, Pandas, NumPy, Recharts, Framer Motion, Vercel

- Built a dashboard tracking Aadhaar update friction across India.
- Developed a PCA-based pipeline to map administrative stress and service bottlenecks.

AI Resume Analyzer GitHub | Live Demo *Mar 2026*

Tech Stack: Python, FastAPI, React, TypeScript, Vite, Groq API, pdfplumber, Axios, Vercel, Render

- Built a React and FastAPI tool to parse and analyze resumes.
- Used Groq AI to score resumes, identify skill gaps, and suggest improvements.
